A practical guide in providing oral health care in care homes for the elderly

Speaker
Mrs Jane Peterson RDH, BS

The Talk will outline the need and requirement of care staff training in oral health care and will establish the need for additional provision and guidance in oral care. Highlighting the role of a dental hygienist/therapist in care homes

Aims & Objectives
To provide an understanding of why oral health care provision is needed in care homes for the elderly.

To demonstrate and understand some of the difficulties care staff face in providing oral care.

Complaints Handling in Contemporary Clinical Practice.

Speaker
Mr Mike Williams BDS LLM DGDP MGDS RCS FFGDP PgCert Ed

Aims & Objectives
Provide an overview of complaints handling in Dental Practice
Describe the current complaints handling framework in England
Explain why patients complain and what they complain about.
Describe strategies for avoiding complaints, managing them when they arise and preventing them from escalating.

Something to get your teeth into?

Speaker
Mrs Michaela O’Neil RDH FAETC

Social responsibility is an ethical framework and suggests that an entity, be it an organisation or individual, has an obligation to act for the benefit of society at large. BSDHT have worked hard to address our professional social responsibility. This presentation will highlight the areas we have been working on and how it benefits communities.

Aims & Objectives
To encourage involvement and awareness of social responsibility

Delegates will be able to:
Realise the effect of early intervention
Expand on the First Smiles programme
Advertise their successes

Introduction to Guided Biofilm Therapy (GBT) in Clinical Practice

Speaker
Mrs Sally Simpson Dental Therapist

The presentation will introduce delegates to the concept of Guided Biofilm Therapy and its uses in Clinical Practice in the management of Periodontal and Dental Implant Maintenance Patients

Aims & Objectives
Introduce delegates to the concept of Guided Biofilm Therapy (GBT) in clinical practice
Outline the protocol for GBT
Describe the benefits to patients and clinicians of the GBT maintenance protocol
Examine the evidence behind the GBT Concept
